## Salt Lake City intercession against sun worship

Dear Chris Waller,

This writing is a brief documentation of my first trip to Salt Lake City Utah earlier this month when we were able to meet and pray and worship Yahweh together. The pictures are more to jog my memory of what the LORD was saying when I saw these things.

My first day in town, I was able to visit the Utah state capital building and pray and worship around it. I also ventured up the slope behind the capital building and found a Mormon historic site at the top called Ensign Peak. Apparently this was the place that Brigham Young saw and said, "this is the place" based on a Joseph Smith "vision."

Many Mormon signs

Many Mormon "altars" that I did not get a good witness were used for anything but ungodly things. Notice the sun in my pictures that I wasn't thinking about at the time, but now know Mormonism is about sun worship.

Beautiful views of the area. This picture on the left was looking west towards the Great Salt Lake in the background. We had to drive 90 miles around the Great Salt Lake every day for our work. What a dry, dead and hot place this was! A very appropriate landscape for the dead religion that founded this city and enslaves so many of the people. But that is changing! Notice the capital building picture below and the **fire** in the upper right of the photo. I just happened to bring a

worship CD by Paul Wilbur called **Holy Fire** which I played a lot during my travels.

Sun Rising over Ensign Peak from my hotel room window

Above are two pictures of my drives around the Great Salt Lake on the way to the testing ranges on the west side of the lake. This picture with the building was the only building I saw around this entire lake other than a small marina with some sailboats. Apparently they tried to make it a tourist area, but as you can see from the empty parking lot, nobody cares to visit a dead salty lake where nothing can live.

This picture was taken at the very top of Ensign Peak. At the time, I did not even notice there was a huge FIRE in the background. Look in the middle on the horizon and see the fire that is 30 miles south. It was a forest fire started by lightning on the very mountain where the U.S. government is building the biggest computer "spy center" in history. My friend Chris Waller happened to be staying with her son and their family which is only a few miles from where this fire was located! They were evacuating houses just on the other side of the Jordan River which is two blocks from their house. Chris had been worshipping Yahweh towards this mountain for several months and did not even realize that this spy center was being built across the street. Here is an article from Wired magazine that exposes the true agenda of this super computer spy center - [http://www.wired.com/threatlevel/2012/03/ff\\_nsadatacenter/all/](http://www.wired.com/threatlevel/2012/03/ff_nsadatacenter/all/)

This "big brother" mentality on a worldwide scope fits in perfectly with the spirit of mormonism which is a very controlling religion that watches every move their members make and threatens them if they ever try to leave. I met one lady whose mother was "Miss Utah" but when she tried to come out of the Mormon church, she was killed in a car crash and burned beyond recognition. This is one of the threats and curses they put on you when you get higher in their ranks but then try to leave. Can you say CULT! South of Salt Lake is over 90 percent mormon because of the Brigham Young University which is the hub of Provo. Chris Waller told and showed me her first hand experience with this dead religion. The stories of abuse and occult witchcraft were shocking to me. Child sexual abuse, multiple marriages (polygamy), and satanic rituals are all common.

On the outside Mormonism seems so harmless, but God calls sun worship the worst abomination (Ezekiel 8), because it is overt worship of Lucifer the "god of this world" who gives power and influence (money and occult power) to those who worship him. Many people in high places of worldly power worship Lucifer and they know it, but hide it through occult practices. Mormonism is one type of sun worship. The 12 apostles of the Mormon church who reside in Salt Lake City Utah worship Satan and if you say the right occult words they will admit this to you. Bill Schnoebelen is one such Christian who came out of the occult, but beforehand he talked to one of the 12 Mormon apostles who told him firsthand that they worship Lucifer in their "temple" in Utah. Bill's two hour testimony can be ordered on a DVD from Stan Johnson's Prophecy Club.

This picture is the same "spy mountain" **fire** on the second day which was getting worse. We could smell the smoke 30 miles away. The fire of God burns away dead religion, and it also judges those people who have given themselves over to satanic things. It may be hard to believe, but there are people who have given themselves over to D'evil one to do his bidding. I had a dream two days before leaving on my 2nd Salt Lake City trip that I call "Spiritual Strike." In this dream, there were about six people who could not pass through a checkpoint and they were killed as a result. At their funeral, the stone caskets had written on them "Spiritual Strike" and my father was helping me to bury them. Our heavenly Father will judge those who have set themselves against His kingdom if they will not repent and turn from their ways. In Ezekiel chapters 8-11, some of the leaders of sun worship died as a result of Ezekiel's intercession and prayers. (Ez. 11:13)

Above is Chris Waller blowing the priestly shofar on top of Squaw Peak which overlooks Provo Utah, the mormon Brigham Young University, and Utah Lake. She and two of her children have upheld this area in prayer for many years, and their labor is not in vain. God will reap a harvest in Utah even in the midst of this dry spiritual place. Yahweh will make a river in the desert and cause it to bloom for His glory! But first a few **fires** may have to burn off the wood, hay and

stubble. While we stand in the gap so that the LORD doesn't have to destroy the land, we do pray that He will destroy the masonic/occult government that is currently trying to run the land, and mormonism is a big part of that occult government.

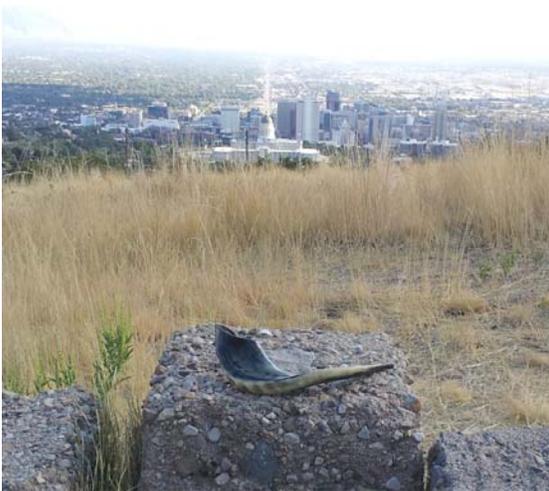

Which brings me up to date today, during my second week long visit to Salt Lake City. August 27-31, 2012.

Outside my hotel room when I first came.... It finally RAINED on the city before I left!

In the desert when it rains, it often evaporates before it even hits the ground. I saw this several times and it reminded me of how dry religion will squelch much of the true teachings (rain) of Yahweh. But as you can see from the picture above, it did finally rain, and that is an encouraging sign that what God has promised for this region, He will accomplish! I prayed the seven Spirits of Yahweh over the region and communities every morning with a miniature menorah.

My shofar is pictured above at Ensign Peak which I visited again and saw another fire. But I did not sense this fire was from the LORD, and may have been from the enemy. I also sounded my **ram's horn shofar** at several other key locations such as:

- 1) The White Memorial Chapel across from the capital building. It is a place of white witchcraft with a pentagram symbol on it. (No Christian cross on this chapel ;-)
- 2) The test ranges (desert land).
- 3) The north side of the mormon temple in downtown Salt Lake City.

*Deuteronomy 17:2-5 - "If there is found among you, within your gates which the LORD your God gives you, a man or a woman who has been wicked in the sight of the LORD your God, in transgressing His covenant, who has gone and served other gods and worshipped them, either **the sun** or the moon or any of the hosts of heaven, which I have not commanded, and it is told you, and you hear of it, then you shall inquire diligently. And if it is indeed true and certain that such an abomination has been committed in Israel, then you shall bring out to your gates that man or woman who has committed that wicked thing, and shall stone to death that man or woman with stones."*

*Proverbs 28:28 - "When the wicked arise, men hide themselves; but when they perish, the righteous increase."*

Shortly after blowing the shofar on the state capital lawn towards the white occult chapel, there were fire engines sounding, but no natural fire. They ended up at the building next to the chapel which is Counsel Hall that the mormons built when they settled the land. It is now used as a visitors center. I followed one of the fire trucks past the mormon temple and took this picture as it passed under some eagle statue that went over the road.

Ezekiel 8:16-18, 11:13 -

*"So He brought me into the inner court of the LORD's house; and there, at the door of the temple of the LORD, between the porch and the altar, were about twenty-five men with their backs toward the temple of the LORD and their faces toward the east, and they were worshiping the sun toward the east.*

*And He said to me, "Have you seen this, O son of man?" Is it a trivial thing to the house of Judah to commit the abominations which they commit here? For they have filled the land with violence; then they have returned to provoke me to anger. Indeed they put the branch to the nose (drugs).*

*Therefore I also will act in fury. My eye will not spare nor will I have pity; and though they cry in My ears with a loud voice, I will not hear them...*

*Now it happened, while I was prophesying, that Pelatiah the son of Benaiah died." (this man Pelatiah was mentioned in Ezekiel 11:1-2 as a prince in Israel who worshiped the sun (8:16) and devised iniquity giving "wicked counsel" in this city)*

This week, hurricane Issac was hitting the Gulf coast and the Republican national convention was in Florida where Mitt Romney (a mormon) was being selected. Also back home, my wife sent me this picture of a house burning just down the road from us. Our friend took the picture from his backyard. When the police and fire department were called, they said, "don't worry it is a controlled burn for a training exercise." Does this look like a controlled burn with houses only feet away? No fire trucks were even there when this picture was taken. Control alright. Government control over things they should be protecting us from! LORD deliver us from this government control!

Back home, we have been out of an air conditioner for over a week. In the month of August it has been hot for everyone and so the windows have been open. After this fire and ensuing smoke, my wife and two of my three kids all got sore throats and a cough. But thanks be to God, today as I write this, we are getting a new air conditioner!

Here is a picture of the construction entrance to the government's super computer Spy Center in Bluffdale Utah. This picture was taken from across the street at Camp Williams which is a Utah Army National Guard center. The sun is setting on spy mountain, and I pray that what was planned for evil will turn around for the good of those who love Yahweh and are called according to His purpose.

This is a picture of a community on Utah Lake. The sun is setting on sun worship :-)  
It is time for this evil to be exposed and repented of within the body of Christ. My prayer is for healing to those hurt by religious control and manipulation in the name of "God." This God, is certainly not Yahweh God or His loving son Yahoshua Jesus, but "another Jesus." Mormonism preaches another Jesus, that is not the true Spirit of the man Christ Jesus who said, "many will come in my name and say that I am the Christ, YET WILL DECEIVE MANY." Mormonism has deceived many over the years, but it is now time for the mask to be taken off so that the true spirit of this religion can be seen and judged.

Set your people free Yahweh, to worship You in Spirit and in truth and to receive the RAIN of your true teachings and life principles. Bring down sun worship!

*"But God is the judge; He puts down one, and exalts another... But I will declare forever, I will sing praises to the God of Jacob!" Psalm 75:7,9*
